

Åland Aquaculture Week

MARIEHAMN, ÅLAND • 9–12 OCTOBER 2012

Join the Åland Aquaculture Week and influence the future of the Baltic Sea Region's aquaculture! The event will offer a platform for cooperation and networking among different stakeholders in the Baltic Sea Region's aquaculture industry, such as policy makers, feed manufacturers, fish and mussel farmers. Discussions will focus on ways towards a sustainable development of the region's future aquaculture. The Åland Aquaculture Week is a collaboration between the projects Aquabest and SUBMARINER.

TOPICS AND PRELIMINARY AGENDA

- Day 1: Closing the nutrient loop: using Baltic Sea raw material in fish feed
- Day 2: Incentives for adapting a Baltic Sea diet in fish-farming – round-table discussions
- Day 3: Mussel farming in the Baltic Sea: prerequisites and possibilities
- Day 4: Mussel farming workshop and excursion to the Åland Government mussel farm (limited participation)

REGISTRATION

Registration is now open at www.aquabestproject.eu and www.submariner-project.eu. There is no fee of registration.

PRACTICAL INFORMATION

The event will be held at Mariehamn, Åland Islands (Finland). More detailed practical information can be found at www.aquabestproject.eu and www.submariner-project.eu

CALL FOR POSTER ABSTRACTS

Please submit your abstract for poster presentation (Word file, max. 250 words) on one of the above mentioned topics to petra.granholm@regeringen.ax by 31 August 2012. Notification of abstract acceptance will be sent by 14 September 2012.

ABOUT AQUABEST AND SUBMARINER

Aquabest creates a strong basis for new, environmental regulation policies. The project strives to demonstrate that the Baltic Sea Region aquaculture has the potential to become a sustainable and responsible food production system, accepted by all stakeholders.

SUBMARINER is promoting new sustainable uses of Baltic marine resources. The project is providing the necessary basis for the Baltic Sea Region to take a proactive approach to improving the future condition of its marine resources and the economies that depend on them.

FURTHER INFORMATION

For further information, please contact Petra Granholm (petra.granholm@regeringen.ax) or Tommi Vollmann (tv@sustainable-projects.eu) and visit the two organising projects' websites:
